Dear Valued Seaview Events clients,

As the global coronavirus outbreak continues, we thought best to share that Seaview Williamstown Events Centre is still open for business and remains committed to supporting all valued team members and customers throughout this time.

In light of the uncertain times we are facing due to the outbreak of COVID-19, we wanted to inform you of the extra steps we are taking to ensure the safety and wellbeing of our valued customers and staff is upheld and protected.

In addition to our regular health and hygiene practices, we have implemented the following:

- Additional hand sanitation stations throughout the venue
- Additional sanitation of high-hand traffic areas e.g., door handles, handrails, bar tops, tables, chairs etc
- Re-training of hand-washing techniques with staff and more frequent cleaning of the entire venue to provide a clean, hygienic environment for everyone.

We also kindly request that customers use card or contactless tap and go for all purchases - to avoid the use of cash

We are monitoring the situation daily and will respond accordingly to Government recommendations. The current restrictions that are currently in place that effect operations at Seaview Events as of 18.03.2020 are as follows.

- **There is a ban on non-essential indoor gatherings of 100 people or more. Australians are still advised to stay away from non-essential outdoor gatherings of 500 or more.**

Here at Seaview Events, our greatest priority is the health and safety of our team members, our community, and you. Therefore, throughout this challenging period, this purpose will remain at the forefront of mind, as we seek to continue offering excellent event services to all within our valued events community.

Please note that if you have recently visited an area or event that has been directly affected by the coronavirus AND are displaying symptoms similar to those associated with the virus (or you have been advised to self-isolate according to medical or government instruction) we respectfully ask you to avoid visiting and instead immediately contact your local health authority or doctor for further advice and instruction.

Kind Regards,

Pruedonce Bainbridge
